Dear Ian,

Just wanted to drop you a line to say thank you to you and your team for carrying out the work in replacing the arc chute asbestos here at the Engineering Academy, Ratcliffe. Throughout, the job has been dealt with professionally and I'd appreciate it if you'd pass on my thanks to Dave and the guys from the asbestos company.

We're in the throes now of having a proper lifting gantry installed into the switch room, complete with electrical lifting hoist to complete the job.

Any time you're visiting Ratcliffe, please don't hesitate to call in on us and have a look at us or simply have a cup of tea.

Best regards
